

Post Implant/ Treatment Teeth Instructions

After dental implant surgery, patient should follow following instructions to keep the replacement teeth healthy:

- ³⁵/₁₇ Avoid brushing the surgical site for the first few days to allow healing.
- ³⁵/₁₇ Avoid putting any pressure on the new implants before they have healed.
- ³⁵/₁₇ Keep the mouth clean. Gentle brushing and flossing should be done twice a day every day as soon as pain is relieved.
- ³⁵/₁₇ Mouth rinse should be used twice daily, after breakfast and before bed.
